Laura Gonzalez Fernandez

EXPERIENCE

❖ Bouvet (Trondheim, Norway)

Consultant @ Equinor

Mar 2022 - Present (2.5 years)

Fullstack development for an internal Equinor application that assures flow of gas in the European and North America markets with strict high-availability requirements.

- ⇒ Led development for transition from manual to electronic messaging for North America, including drawing of technical requirements and release planning.
- ⇒ Expanded functionality to support oil flow in the Gulf of Mexico area.
- ⇒ Contributed to migration of legacy code, maintenance of cloud infrastructure and system testing.
- ⇒ Provided continuous support for users in multiple international locations.

Technologies: C#, ASP.NET, Microsoft Azure, Oracle Cloud, PL/SQL, WPF, Git

❖ Pineleaf Studio (Trondheim, Norway)

Game Developer

Oct 2018 - Jan 2022 (3 years)

Client and server development in Unity on a multiplayer strategy title for PC.

- ⇒ Led UI development and communication with art team.
- ⇒ Led development and maintenance of deployment pipeline.
- ⇒ Led implementation of local hosting for game servers.
- ⇒ Contributed to gameplay mechanics, real-time communication optimizations and integration with Steam.
- ⇒ Responsible for implementation of localization system.

Technologies: Unity, C#, Azure Cosmos DB, Git, Azure Devops, Multiplay online hosting and matchmaker services
